

## **“Go Lean” Six Sigma Green Belt Certification Course**

### **About This Course**

This 64-hour course will introduce attendees to the concepts and application of Lean Six Sigma tools and strategies for the workplace. Following the DMAIC methodology applied to a relevant company project, attendees will realize measurable results as the learning is applied through each phase to completion. The course includes on-site coaching, Champion development to guide the project and interactive peer-to-peer learning.

These improvement techniques apply across all disciplines, from manufacturing, healthcare, service industries, government, academia, and office settings.

### **About the Instructors**

**Heath Boe** is a certified Master Black Belt. Heath received his Green Belt training from the Department of the Navy (2007), his Black Belt training from Motorola ® University (2009) and his Master Black Belt training from Underwriters Laboratories ® (2012). He has been an active six sigma practitioner for nine years and has been a business improvement manager for five years. In addition he has taught numerous internal Green Belt classes and business improvement methodologies including (FMEA, RCA, TOC, 5 Whys, A3, ANOVA, and many more).
